

## COMES IN OCTOBER

## CASE AGAINST THE MISSOURI PACIFIC RAILROAD.

Correspondence Relative to the Suit Began in August, 1892, Between J. E. Howard and Judge McMill, Instituted by J. W. Ady in the Summer of 1893 and Now Pending a Decision by the United States Supreme Court—Charges Twice as Great Between Wichita and St. Louis as Between Omaha and St. Louis.

A big railroad case of much more importance to this particular section of country than the recent decision against the Trans-Missouri Freight association, will come up in the next session of the United States circuit court here.

It is brought by the federal government in the interest of the Wichita Transportation association against the Missouri Pacific railroad.

It is to be made a test case and if successful for the plaintiff will be made to apply to the other roads as well. The Missouri Pacific trunk line runs from St. Louis to Hadden, Missouri, where it divides, one branch running to Omaha and the other to the southwest. There is a difference in the distance from Hadden to Omaha and Hadden to Wichita of forty-three miles in favor of Wichita and yet it costs twice as much to send a carload of stuff from St. Louis to Omaha. Or it costs 20 cents to send hogs on foot from Omaha to St. Louis and 35 cents from Wichita to St. Louis.

In August, 1892, J. E. Howard, then chairman of the Wichita Local Transportation committee, opened up a correspondence with Judge McMill, member of the Interstate Commerce commission, and in September McMill came here and took testimony for the purpose of bringing the matter into the United States courts. In April, 1893, the Interstate Commerce commission ordered Joe Ady to bring suit, which he did some time in the summer of that year.

Although petition was presented setting forth all the discriminations set out by the testimony taken the year before by Judge McMill and covering hauls both ways from St. Louis to Wichita and Omaha to St. Louis, the company demurred to the petition on the ground that there was no law nor authority that warranted the bringing of the suit, but the demurrer was not sustained and the court ordered the railroad to answer. They asked time and the matter now rests pending a decision of the United States supreme court, that is expected early in September. The case will in all probability come up in October.

## "SALVATION SAL"

Or Life Among the Lowest in Darkest New York.

One that sweltering night in the slums of New York a poor mother left the side of her dead child in a miserable home in a rear tenement on Mulberry street to seek a little fresh air on the street.

As she passed through an old cellar way she saw lying on a plank in the damp cellar floor the form of a girl sleeping off the effects of a drunken debauch. Some one said to the bereaved mother: "Would you rather have your child alive and become such as she is, or dead in your room as she is now?"

"God knows, dead," said the mother. The girl heard the remark, aroused herself, went to the Florence Mission on

Bleeker street and was converted and afterwards led a useful Christian life. Evangelist John Lane, who has been holding successful revival meetings in the Emporia Avenue Baptist church, corner Emporia avenue and Tenth street, sang his first original song on the occasion of the first anniversary of the conversion of "Salvation Sal" in the Florence Mission. Since then he has composed a number of popular gospel songs and is now on a tour across the continent preaching and singing. He will close his work in this city Monday night, June 21st, at the Emporia Avenue Baptist church, on which occasion he will deliver his song recital entitled "Darkest New York." Illustrated with stereoscopic pictures and descriptive songs. Mr. Lane has been all over the ground of the city and is a reformed man himself. Admission: Children, 10 cents; adults, 15 cents.

## THAT OLD FUR GARMENT

Is worth almost as much today as the day you bought it; but eaten or worn spots can be taken out without even showing a seam. The only question is what can be done with it. It is out of style and worn. Maybe it needs new lining, or should be skinned and trimmed. That old coat would make a beautiful full sweep cape, or cape and cape are just the thing this season. There's that old fur garment you haven't worn for years, because it is all "faded out." Why, that will make you a beautiful coat. Just the thing for fall and spring wear. Then just look at that garment. It is entirely "gone up." The hair stands the wrong way on it and it is worn and matted. It's too early to use. Well, it does look bad, but by the process of cleaning the fur is brought out and cleaned and then, when remodeled, it is like new.

...DURING JULY AND AUGUST This year, we will make a speciality of ALTERATIONS AND REPAIRS. Our system of measurement is such we can fit you as well by mail as by personal measurement. We make NEW FUR and FUR GARMENTS TO YOUR ORDER. ALL WORK GUARANTEED. Write to us.

## ONE STATION MORE

FURLEY WILL OPEN A SKIMMING STATION TOMORROW.

Mount Hope Will Clamber Into the Band Wagon Next Monday, After Which the Total Receipt of Milk Will be Nearly Twenty Thousand Pounds Each Day—Disbursements Now Reach More Than Eleven Thousand Dollars Per Month With More to Follow—Some Figures Real and Prospective.

Tomorrow the third skimming station of the Kansas Creamery company in this county will be opened at Furley with a regular free-for-all ice cream carnival and neighborhood celebration. On next Monday another one will be opened at Mt. Hope.

This will increase the daily receipts for the company at all their stations in the county to about 22,000 pounds.

At this place, Riverdale and Peck, the three stations already running, the receipts now amount to about 15,000 pounds per day.

Computing the butter fat in this at 20 per cent of the total weight, which is a conservative estimate, that amounts to 3,000 pounds per day or 90,000 pounds per month. At 13 cents per pound, which is the lowest ever paid, this would mean \$117.00 each month to the farmers who sell the milk. When the other two stations are established this will reach a total of perhaps \$18,000 or \$20,000 per month.

Mr. Brown, who has charge of the work here, says that the company has never put in a plant where the amount of milk brought in the first month was as large as it has been here since they began work over in the Zeigler building on North Market. The company has a complete creamery, skimming and churning apparatus, and the milk is skimmed, tested, purified and 700 pounds of butter turned out each day.
